ResearchBuddy AI: Empowering Research Through Collaborative Supervision

Dear Esteemed Researcher,

ResearchBuddy AI, an innovative platform, is dedicated to fostering high-quality academic research. We are reaching out to present an exclusive opportunity for you to join our network as a **Research Supervisor**, leveraging your expertise to guide the next generation of scholars.

About ResearchBuddy

Our AI-powered platform seamlessly connects aspiring student researchers with seasoned supervisors. ResearchBuddy provides a structured, supportive environment where students can refine their ideas, conduct rigorous research, and successfully publish their findings, all under expert mentorship.

Why Partner as a Research Supervisor?

Joining ResearchBuddy offers a unique blend of professional fulfillment and tangible benefits:

- **Shape Future Researchers:** Directly influence and mentor students, contributing significantly to their academic development and the broader research community.
- **Monetize Your Expertise:** Receive competitive compensation through a **50% revenue share** from supervision sessions, transforming your invaluable knowledge into a rewarding income stream. Additionally, you will receive a **one-time incentive of 5000 BDT** upon the successful completion of a research lab.
- **Drive Impactful Research Projects:** Lead students in conducting original research within your field, with the primary goal of drafting a high-quality paper

suitable for conference or journal submission within a **6-month to 1-year timeline**.

- **Access Industry R&D:** Engage with industry-driven research projects, opening doors to new funding opportunities and expanding your applied research portfolio.
- **Amplify Your Scholarly Impact:** Guide students to produce and publish high-quality papers, enhancing your own academic contributions and increasing your citation potential.
- **Flexible Engagement:** Design your own schedule and supervise students at your convenience, with **no limit on the number of students you can supervise**, ensuring a perfect fit with your professional and personal commitments.

Supervisor Responsibilities:

To ensure a productive and supportive environment for students, ResearchBuddy supervisors are expected to:

- **Weekly Virtual Meetings:** Conduct virtual meetings with students via Zoom at least once per week, with each session lasting between 1 to 1.5 hours.
- **Prompt Communication:** Actively reply to any student queries received through the ResearchBuddy messaging system within 24 hours.

How Our Partnership Works:

1. **Effortless Profile Creation:** Set up your supervisor profile, detailing your research specializations, interests, and availability.
2. **Intelligent Matching:** Our advanced AI system precisely matches you with students whose research needs align perfectly with your expertise.
3. **Collaborative Mentorship:** Provide expert guidance, constructive feedback, and support throughout the research process, culminating in successful publication.
4. **Rewarding Growth:** Earn compensation for your dedicated mentorship while expanding your professional network and solidifying your academic footprint.

Our Engagement Model

To facilitate this collaborative environment and provide access to our comprehensive AI research tools, students are charged a fee of **1000 BDT per month** to connect with supervisors and utilize the platform's resources. We are trying to develop research

culture in Bangladesh by connecting them with experienced supervisors like you.

Your distinguished expertise and extensive experience are precisely what aspiring researchers need to thrive. We are eager to discuss this impactful partnership further and address any questions you may have.
